

"The Attributes of God"
(Knowing God's Personality & Character Better)
F.O.F. Session 3

Discussion Group Questions:

- Discuss how the non-communicable attributes of God helps develop your relationship with Him as '*God your heavenly Father*'? (How do these enhance your Bible study, prayer times with Him, serving Him, etc.?)

- How do the non-communicable attributes help you in confronting sinful habits in your life, seemingly insurmountable obstacles you face or ministering to others about things like that?

- Why do you think God will forever reserve the non-communicable attributes for Himself and Himself alone? (If it was possible, which one do wish was communicable to you and why is it probably best that it isn't?)

- Which of the communicable attributes is God working on most in your life these days? How can you tell which one(s) He is perfecting? What are some of the things He using as 'tools' to get the job done?

- Which of the communicable attributes seems the hardest for you to become a personal characteristic of your life? (Why do you think some areas are harder than others?)

- Talk about how this study of the attributes of God is helping you in practical areas of your life (relationships, attitudes, overcoming sin/ marriage, family, work/ school, the job; discerning God's will in decisions facing you, etc.)
